**The Big C Battle: The Latest in
Natural CANCER Therapy**

Workshop — June 3, 2011

Dr. John Lubecki, DC

Foreword

Dear Community!

Below you will find my hand-written Notes from **HealthBoss University LIVE 6/11** event that took place June 3-5, 2011 in Austin, TX.

These are the notes that I made for my own presentations, as well as the ones I took listening to other Practical Professors. **THEY WERE NEVER MEANT AS PUBLIC**, so do not expect any "academic" presentation 😊 And yet, they will give you a good "starting point", an overview of what was presented at the event, as well as the reference points and "memory joggers" in the future

(at least that's how I use them).

Why am I making them public now? There are several reasons.

1. The world is changing fast, along with every field of human experience – including Health Science (thank Goodness). And what is emerging on a horizon is a new system of Health Care based on **Self-Care**. We called it the **Home Healer** movement.

The new health care model is all about YOU declaring your **Health INDEPENDENCE** and taking responsibility for your own health, at the same time taking back CONTROL and POWER that you didn't have for quite some time.

Yes, sounds good, but how and where do you get enough **KNOWLEDGE** to become health independent? Where do you find enough health CONFIDENCE and COMPETENCE?

At the **HealthBoss University**, where else?! 😊

I am sharing with you my Notes to show that even the most complicated health topics can be made simple and fun, and that the health science does not necessarily have to be a "rocket science" or a "brain surgery" (actually, I hope you will never see what brain surgery actually looks like; you would be surprised...) 😊

Your body has a very intuitive and comprehensive design – and as soon as you understand how it works, it is easy to make sensible and confident choices in maintaining the "most valuable instrument that you will ever own"— your Body. I wish my Notes would help you do just that.

2. I think the information given at the HealthBoss LIVE 6/11 was **priceless** – and there are very little chances you can get most of it anywhere else.

Yes, we are making this information available on DVDs, but what if you cannot afford them? With my Notes, you will at least have some guidelines to follow, and some food for thoughts. I hope these thoughts will ignite your curiosity – and in the process of satisfying it you will have your own "AHA!" moments, which feel soooo good 😊

3. I also hope that my Notes will give you enough information and encouragement, and you will NOT feel like **Helpless Hopeless Worthless Victim** any longer when your health is concerned. As our Practical Professors will show, you really CAN reverse even the most debilitating disorders; you really CAN be Your Own Health Boss!

Home Healers, it's YOUR Time.

To Your Health Independence,

Dr. Irina

H&BU Class 6-11

Day 1 Part 2.

The Big C Battle

Dr. John Lubecki

the only Dr in the world who makes NO mistakes (because he listens to the body)

Energy medicine discoveries open a way to MAKE SICKNESS IMPOSSIBLE (CANCER included) In China DR's are paid for HEALTHY people.

MAIN Principle: If ENERGY flows FREELY in the body, the body DOES NOT develop dis-ease.

In China DR's would check for ENERGY flow interference → remove it BEFORE disease develops.

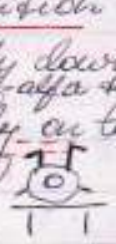

If a patient gets sick, it's DR's fault

In the West Dr. Toll was amongst the first to develop electrodiagnostics. BUT! His system takes a lot of time.

"useless" according to J.L. WORKS 4 CANCER etc.

How it works: We have a better way. Home

- 1) Cover a patient with white cotton sheet (colors affect readings) ← colored hair included →
- 2) Measure heels position when patient lies on a table belly down - heels up heels (heels s.b. even, if not-use alt-alpha to even up - shake heels)
- 3) Press hard vertically on the heels ↓ one will sink. Why?

There is ENERGY Flow Interference somewhere → it changes muscle tone

- 4) Introduce homeopathic remedies for various conditions. Remedy neutralizes harmful effects of these conditions (energetically) - heels will even out, if this condition is present.

homeopathic remedy box on the back - heels even

Kit w/ tests for parasites, cancer, infection (strep, staph), heavy metals, radiation (RADIATION is #1 cause of CANCER), allergies

CANCER is caused by **ENERGY flow INTERFERENCE**, just like any other disease. Just more severe.

5) Keep adding remedy vials to see **HOW** ~~SET~~ **STRONG** is the interference - until **heals** are uneven again.

(neutralization is full) & **How do we RESTORE energy flow?**
Introducing

MD = Mad Dog (what they are doing is pure madness)
AMA = American Murder Assoc.
FDA = FAST Death Administration

6) **Homeopathic Imprinter** =

= new era in homeopathy. No need for complicated diagnosis - or oral remedies (work slow).

HR (Homeopathic Remedies) will NOT work if contaminated -> check imprinter with pendulum.

(clockwise - good; counter-clockwise - not so good)

"lightning medicine" (for the speed)

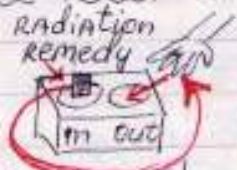

+ **Homeo** = "same"
+ **Pathy** = "pathology"

← "like cures like"

hitting disease with same vibrations but magnified million times (or more)

Create your own remedy! (ex: radiation)

Procedure: Sample remedy - on the Input hand - on the Output

START WITH RADIATION "CURE"

RADIATION is now #1 cause of **CANCER** (before was Nickel, cadmium, mercury)

Remedy vibes x 1,000,000+..

In most cases **DIAGNOSIS** is useless because we **(ALL)** have: (waste of time) (thanks to toxic world)

- radiation - fungus
- infections - mold
- parasites - yeast
- heavy metal toxicity
- & even cancers

if all causes disruptions in energy flow -> and **ALL** needs to be **neutralized** (Just Remove ALL by default)

Simple checks:

- 1) Reflex for **radiation** - top of the head
- 2) Reflex for **infections** - thymus
- 3) Parasites - left groin
- 4) Aluminum, lead - back of the head
- 5) Mercury - thyroid; nickel - (vertical) pancreas

Always test with a **fist**

Check your jewellery!!! AHA!

Muscle test: you are testing **LOCK**, (palm on NOT strength wrist)

7

7) Creating YOUR OWN homeopathic remedy (with imprinter) to deal w/ ^(somebody) ~~chemicals~~ ^{infectious, parasites, cancers} ~~metals~~ ^(allergies & radiation are exempt) ~~at well as fungus, mold, dust, heavy~~

You need to imprint yourself 3 times/day (we live in a toxic world)

Step 1. Your vibrations go into the "black box"

Step 2. They come back to U magnified up to million times

Don't forget to clear imprinter from pollution by lasering it w/ 660 daily !!!

8) Adding Soft Laser (G-laser)

Imprinter alone in our super-toxic environment is NOT enough any longer, (like it was 70-100 years ago) especially in dealing with CANCER ^{(nickel, mercury, cadmium) cause of C-R}

- You need:
- 1) Get rid of heavy metals or neutralize them with G-laser (nothing else will work on heavy metal toxicity)
 - 2) Get rid of chemicals with imprinter & Aluminum does not cause C-R & removed w/ imprinter
 - 3) Get rid of radiation → needs homeopathic remedy ^(self-made remedy) ^{crystal}

9) Healing power of quartz CRYSTALS

Crystals are known to change energy ↓ as a result, muscles change tone ↓ that allows to align skull base & bite

You can use crystals on ALL meridians in the body in order to restore energy flow (if will be temporary, you can easily self-treat)

Laser continued:

Full body "lasering" is VERY important for magnetic field ^{daily}

You can use G-laser to neutralize the expression of heavy metals (esp. mercury) if they are present (and they ALWAYS are)

Cell phones (radiation) RE-ACTIVATE the expression of heavy metals in the body ^{AHA!!!} ^{mortal danger!!!}

6 min/day (G-1000 is NOT enough; use probes) neck & shoulder is enough

9 times out of 10 PAIN is NOT where the PROBLEM IS! ^{AHA!}  muscle test (8)

Allergies. Can be muscle tested & eliminated by tapping along mid-line of the body (better with "white box" in a fist) several times a day. Tapping can also be done on the back - up & down the spine (if someone can help).

Fingertipping for health.

For elimination of 'emotional scars' & other energy flow blockages - place fingertips tight together (both hands) firmly do the forehead for 60 sec - that will improve energy flow.

1-2 times/day (morning preferred)

Scars & calluses

^{AHA!} eye problems are typically caused by ~~loss~~ disturbance of magnetic field; hair loss, - parasites & mercury

"If you don't treat your scars & calluses every day, you will never get well" ... JL

rub
rub
rub
rub
rub
rub

Rub scars every day with vit E or helichoyseum (bitter)
Scrub calluses every day with pumice stone, feel the energy!!!

CANCER treatment routine:

1) Head "Table test" (heels up) for:

- CANCER
- RADIATION
- heavy metals: nickel, cadmium, mercury
- parasites
- infections

(watch episode w/ Clarence)
(make sure all clothes is white - even up the heels w/ off-alpha & hip adj; if initial position is unknown)

JL actually does NOT bother to test - only do show results to family & client

Treatment:

imprinted
print

- create client's remedy w/ black box (for chemicals, parasites, infections, cancer)
- neutralize radiation w/ x-ray
- clear fungus, mold, yeast w/ "Bag of pills"
- + Clear heavy metals w/ A-laser + 660

Do steps in ANY order

- Table -> Re-test on cancer, radiation, heavy metals ...
- + Re-align (skull) w/ crystal -> table test on a back (legs up)
- + Treat scars & calluses w/ laser + 660 + pumice stone + vit E
- + (Fingertipping) -> repeat the leg test (8) Full body, lasering for restoration of magnetic field
- + Treat allergies w. white box & tapping

I hope you enjoyed my Notes—and found something in them that may positively affect your life and the lives of your loved ones.
